Yellowstone County	47,404	56,048	63,025	26,612	28,686

Source: U.S. Census Bureau, Census 2000 Summary File 3

Mean income represents an arithmetic average of a set of numbers. It is the amount obtained by dividing the total income of a particular statistical universe by the number of units in that universe. Thus, mean household income is obtained by dividing total household income by the total number of households. For the various types of income, the means are based on households having those types of income.
